***Please join us in playing soccer in Michael's memory***

In 2006 Michael Oremus' squad located an Improvised Explosive Device (IED) near a major intersection in downtown Baghdad. Upon completion of securing the IED, Michael was returning to his vehicle when he was struck by a single round fired by an enemy sniper...killing him instantly. In his last moments he displayed exemplary courage and strength. There is no telling how many lives were saved this day through the action of Michael and his squad. In honor of Michael, The Michael Oremus Foundation holds an annual tournament. We hope you will join us.
